

WaveCall™

MARITIME SATELLITE PHONE & DATA SERVICES

Sea Tel®
Look to the Leader. Look to Sea Tel.

WaveCall™ by Sea Tel®

The Most Reliable and Clear Maritime Phone Service Available

With almost three-quarters of the world's vessels relying on Sea Tel stabilized antenna systems for their commercial satellite communications, it's no wonder Sea Tel products and services have earned the reputation as the most trusted and reliable in the industry. And **WaveCall™** by Sea Tel is no exception, with crystal clear digital voice and data maritime phone communications that cover you practically anywhere your travels may take you.

A wide range of **WaveCall** models are available to meet your personal or business needs while at sea, all of which are ideally suited for salt water environments. From rail mounts and radomes to remote mini antennas, our rugged marinated receiver/transmitters are externally mounted and connect to your vessel's internal communication system via a junction box.

Flexible enough to handle all your voice and data needs

Simply plug standard telephone cords and data connectors directly into the junction box and you're ready to make/receive calls or surf the Web. Use standard handsets, answering machines, cordless phones, PBXs, laptops and even desktop computers throughout your vessel... it's that easy.

WaveCall, a subsidiary of Sea Tel, provides the ongoing airtime service via Globalstar™ Satellite Service. Enjoy such features as voice mail, free ISP service to access the Internet, and some of the lowest priced minutes available. With Globalstar Satellite Service, a constellation of 48 low earth orbiting satellites, you get a static-free signal with no perceptible voice delay. Plus, you have the assurance of Sea Tel's legendary reputation and unparalleled 24/7 service support.

WaveCall, Sea Tel and Globalstar... the perfect solution for all your marine telephone and data needs.

The WaveCall Advantage...

- Reliable digital voice quality
- Internet and Data with speeds from 9.6 to 144 kpbs, depending on model and use of SatSpeed Internet Compression Service
- Coverage in most of the well-traveled world
- Competitive per minute rates with calling plans to suit your needs
- Engineered into vessel PBX or existing phone system
- Backed by Sea Tel's 24/7 service support
